COMMERCIAL REBATES PROGRAM HVAC INCENTIVE SUMMARY

To Calculate Your HVAC Rebate

Unit Quantity × Unit Tonnage × Incentive (\$/ton based on unit efficiency) = Total Rebate

For example, if you are installing two 10-ton AC package units at 11.8 EER:

2 units × 10 tons × \$50/ton = \$1,000

Please review full program requirements and equipment eligibility at austinenergy.com/commercialrebates.

Split System or Package Unit – AC or Heat Pump (smaller than 20 tons)

Due to building code, units less than 5.42 tons are rated using Seasonal Energy Efficiency Rating (SEER) and larger units use Energy Efficiency Rating (EER).
